

Lewis-Palmer Elementary School

January 8, 2020

Dear LPES preschool and preK families,

It is with regret that we are announcing that effective next school year, 2020-2021, Lewis-Palmer Elementary School will no longer host preschool and preKindergarten programs at our building.

We love our littlest students, and this was not an easy decision. However, we are nearing capacity for classrooms in our school. We have added one classroom each year over the past three years, and we anticipate this trend to continue. In order to accommodate this growth without adding modular buildings, we need to relocate preschool and preK to one of our other District buildings that currently do have space. Programming will continue next year at Bear Creek and Kilmer Elementary Schools as well as PLECC (located next to the D38 Administration Building).

Similar to last year, our current LPES families will be offered preferential enrollment application status. More information about preschool and PreK registration for next year will be coming out within the next two weeks.

We value you, and we value our excellent staff. At this time, we anticipate our current staff members moving to one of our other District preschool programs. Specific staff placements will not be finalized until later this spring.

Please let Jaime, Kathy, or me know of any questions or concerns. Thank you for sharing your children with us. We look forward to a fun spring semester full of learning and laughter.

Best regards,

Jenny Day
