December 4, 2018

Lewis-Palmer School District 38 Families,

I want to make sure you are informed about changes that will impact our district in the future. At an executive session during yesterday's Board work session, I informed the D38 Board of Education of my intent to retire at the end of the 2018-2019 school year. Why now? There are many reasons that this is the right time. In addition to spending more time with my grandchild, I want to ensure that I can contribute to causes and interests that I have little time for now.

While I look forward to this next chapter, I will also value the memories of incredible experiences from the past five years during which time I have served as superintendent in D38. I have been honored to stand beside staff members who are so dedicated to the success of our students. All represent the best-of-the-the-best and bring their talent and caring to their daily work, regardless of their job within the organization.

Our Board members, present and past, have served in a difficult role and have kept student outcomes in mind while making decisions on behalf of our district. We have many community members and families who quietly support our students and district through volunteer work and give their time and resources to ensure our students have the best possible chance for success. I sincerely appreciate their critical contribution to our community and district.

During this transition period, I am committed to continued leadership and focus on the key projects we have identified in our Strategic Vision/Altitude Framework. I believe in the work we are doing to ensure all of our students receive the best possible education to reach their full potential in adulthood. This includes our commitment to increasing postsecondary options, providing 21st century learning in safe and secure learning environments, promoting the well-being of students, and developing long-range plans to address future growth. I will support a smooth transition to new leadership to ensure that these important projects continue to move forward into the 2019-2020 school year.

Lewis-Palmer School District has provided years of quality educational opportunities for our students and enhances the value of our community. I know the same will be true in the near and distant future. Thank you for the opportunity to serve.

Sincerely,

Karen Brofft  
Superintendent of Schools  
Lewis-Palmer School District 38
