

ANNUAL AHERA NOTIFICATION
LEWIS-PALMER SCHOOL DISTRICT #38
SCHOOL YEAR 2020-2021

Under the Federal Asbestos Hazard Emergency Response Act (AHERA) of 1986, Lewis-Palmer School District is required to provide written notification to parents or legal guardians, teachers and employee organizations, of the availability and location of the Asbestos Management Plans and of any post-response action activities, including periodic re-inspection and surveillance activities that are planned or in progress.

During the 2020-2021 school year, the AHERA related activities have been the periodic 6-month surveillance and the AHERA mandated 3-year re-inspections to maintain current information on the condition of materials in school buildings, and in response actions for maintenance, renovation and demolition of these buildings. Six-month surveillance activities have been completed by school system employees, while the 3-year re-inspections have been completed by licensed and certified individuals who are independent environmental consultants. The Asbestos Management Plans are available for review during normal working hours at the Lewis-Palmer School District Administrative Offices. Please contact JKrueger@lewispalmer.org so that materials can be readily available at the Front Office.

In the coming year, the planned activities under the AHERA Standard are the regularly scheduled 6-month re-inspections, as well as continued maintenance of materials within Lewis-Palmer School District as renovations progress.

There are no additional planned activities or minor repairs scheduled.
