

# How to bookmark a Schoolwires page on your Android device

1. Navigate to the Schoolwires page you want to bookmark using your Android device's browser.

(See next page for final steps.)

2. Tap the three vertical dots to open the menu below. Choose Add to Home Screen.

3. Give the your shortcut a memorable title (in this case, I just kept it as Art Club Home) and then tap Add.
4. Tap on the app icon (phone shortcut) whenever you wish to get directly to that webpage.
