

How to Bookmark a Schoolwires Page on Your iOS Device

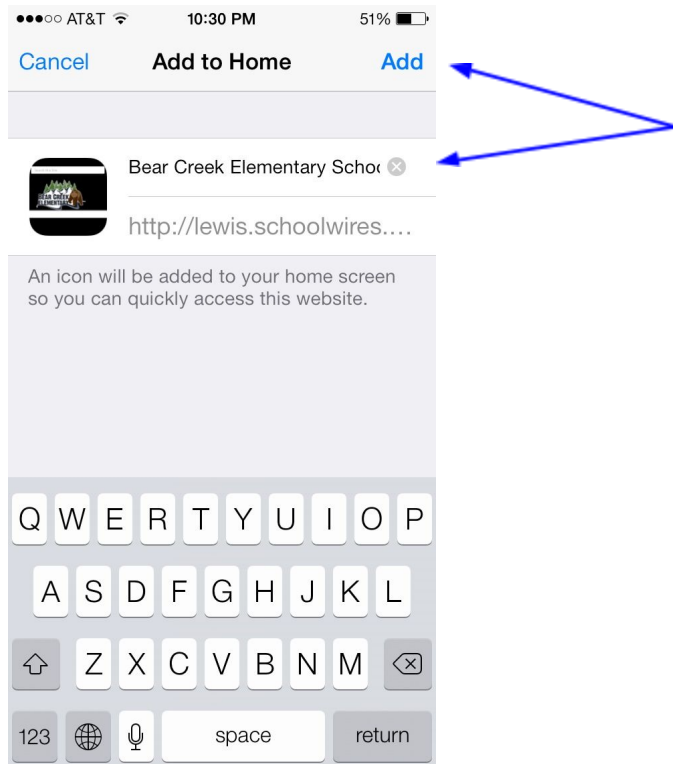

1. Navigate to the Schoolwires page you want to bookmark using your iOS device's browser.
2. Click on the Share icon.

3. Choose Add to Home Screen.

4. Give the Schoolwires icon a memorable title and then tap Add. (In this case, I chose to delete the text that was there and replace it with just BCES.)

5. Locate the shortcut on your phone. Simply tap the icon to open the website.
