Friday's trivia question is:

Who was the first female commander of a space shuttle? **Eileen Collins is a retired NASA astronaut and US Air Force Colonel. She was also the first ever female pilot. She logged 38 days, 8 hours and 20 minutes in space.**

Today's fun fact:

Irene Sendler was a Polish nurse and humanitarian who ran the Polish Underground in Nazi occupied Poland. She was the head of the children's section, Zegota, and with the help of a few dozen other Zegota members, she was able to save over 2,500 Jewish children by smuggling them out of the Warsaw Ghetto, and providing them with falsified documents once out. With the exception of diplomats who granted visas to Jews during WWII, Sendler saved more Jews than any other individual during the Holocaust.
